Product introduction

Person/Pet Detection

It activates the alarm and sends you notifications only when it detects a person or pet.

Easy to set up

Plug it in. Connect to WiFi. And you're good to go.

Auto Tracking

Automatically follows people and pets to record their every move.

4MP Super HD

See your home in finest detail. Much clearer than 1080p camera.

355° Pan & 50° Tilt

Control it to spin, and see areas where fixed cam cannot reach

Dual-Band WiFi

2.4/5 GHz WiFi for simple installation and reliable network performance.

Extend Smartness to Every Home

E Series E330 is compact and blends into your home seamlessly. Loaded with smart features,
it can do many things like rotate at your disposal to reach more areas. Or send you customized motion alerts.
With unbeatable price, it makes smart and high-quality home protection accessible to everyone.

Instant Detection & Tracking

Once the camera detects a person or pet, the camera will send you instant alerts and automatically rotate the lens to follow their footstep. In this way, it better guarantees the safety of your babies, the elderly and pets by recording their daily activities and alerting you when someone breaks in. Auto tracking is available only in the horizontal direction.
