Advertising Text

Let your presence bring your home to life. Control your lights and appliances via movement, and receive notifications when motion is detected. Eve Motion features future-proof technology with Matter, cutting-edge Thread networking, and no tracking whatsoever – for a universal and rock-solid smart home that honors your privacy. The only other thing you need is a matching hub of the platform(s) of your choice.

USPs: Motion and light sensor | Notifications | IPX3 water resistence | Matter-enabled | Highest data privacy

100 % Privacy   No Eve Cloud   No Registration   No Tracking

Recommendation for Placement

- Accessories for: Apple Home / Samsung SmartThings / Amazon Alexa / Google Home
- Smart Home Products
- App-Enabled Technology
- Connected Home & Smart Living

Selling Points

Eve Motion – Wireless Motion Sensor

- With Eve Motion, control your lights and appliances via movement, and receive notifications when motion is detected (available on selected platforms).
- Place the sensor indoors or outdoors thanks to wireless battery operation and IPX3 water resistance.
- Monitor large areas thanks to 120° field of view and up to 9 m detection range.
- Matter-enabled to let you seamlessly monitor your home across smartphones and voice assistants of all major platforms.
- Get up and running in a flash with quick & easy set up, requires hub (see evehome.com/hub).
- With the Eve app for iOS, review motion time, set the sensitivity of the motion detector individually and refine automations by brightness.
- Cutting-edge Thread network technology for a robust smart home; enhances the stability and reach of your Thread network.
- 100% Privacy: No Eve cloud, no registration, no tracking. Local communication without cloud dependency.

Target Group
