

TCL K70_{5G}

TCL K70 5G TARGET AUDIENCE

K70 5G Target Audience

- 25-45 years old;
- 60% are male (GL);
- Medium and low income;
- low education level ;
- Single or unmarried;
- Most of them live in first-line or second-line city.
- Waiters or waitresses in restaurants, supermarkets, and hotels.

Waiters or waitresses in big city.

1. Core Usage Scenarios:
 - During the busy work, they browse social media and TikTok, chatting with friends and playing games, taking a quick and short break.
 - After finishing the whole day's busy work, when they go back home, they lie on the sofa and play games, watch movies, and browse social media to relax. (Prefer casual mobile games.)
 - Their working environment makes their mobile phones more likely to come into contact with various types of liquid and solid stains and unexpected falls.
2. Core purchasing factors: price, chip/processor, display, speakers, durability
3. Hobbies: Fitness, playing casual mobile games, climbing and hiking

Snapdragon 4 Gen 2 Chipset
with Supercharged LPDDR5

Offers a faster and smoother usage experience when they quickly switch between multiple apps and play mobile games.

TÜV SÜD 48-Month Lag-free Performance

It can meet their requirements for durability and bring 4 years of lag free performance.

Military-grade Shock Resistance
IP64 Dust & Splash Resistance

The all-around protected device can better face the various accidents in their daily life, and obtain a longer lifespan.

SUPERCHARGED LPDDR5 WITH UP TO 12GB RAM

SPEED UP AND LAG FREE

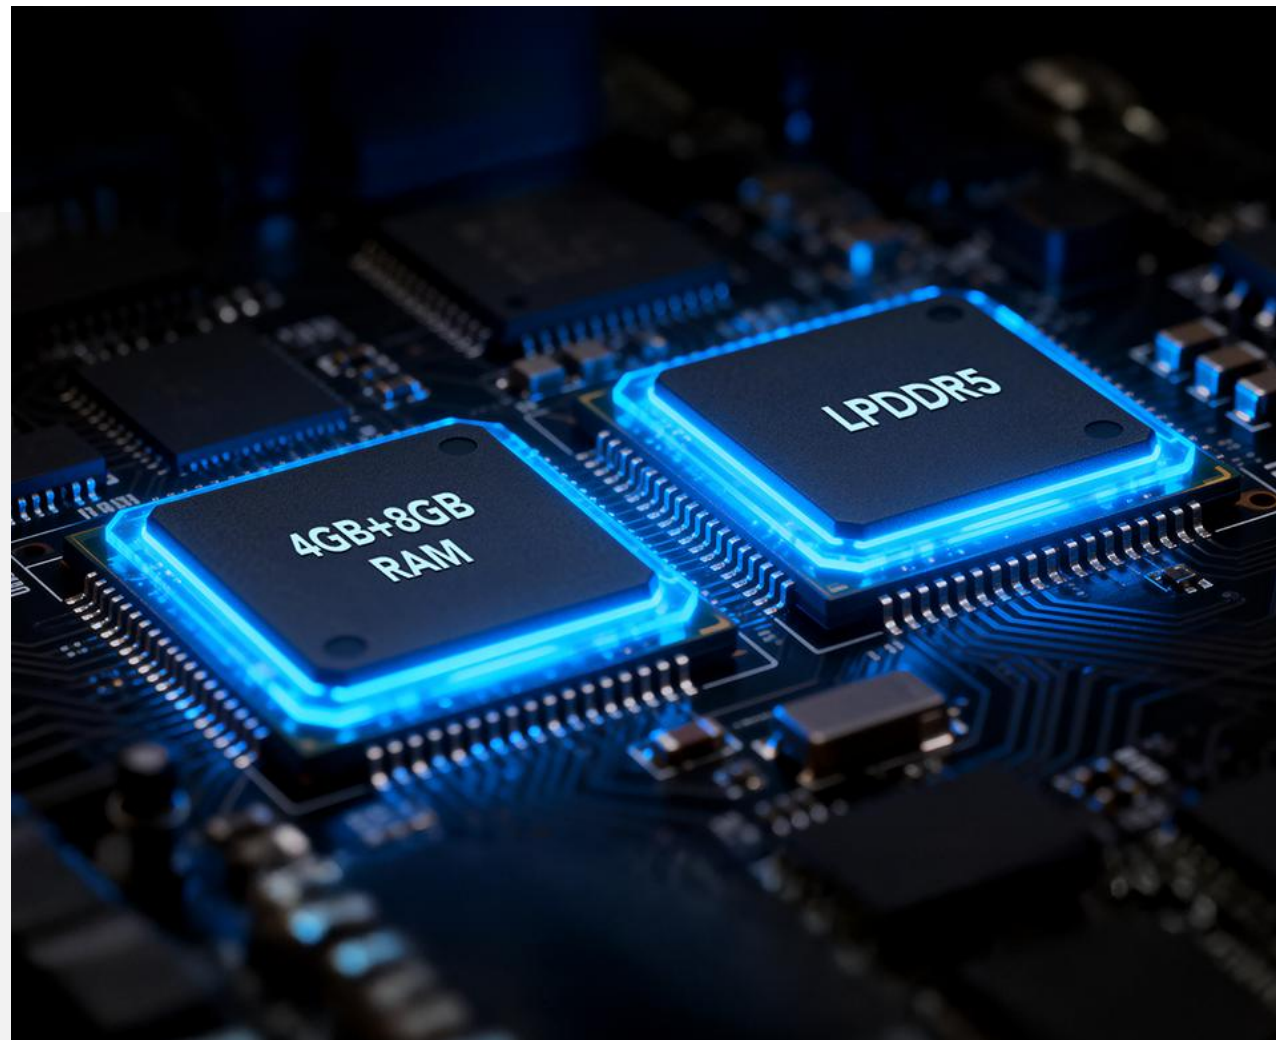

Upgraded LPDDR5, 28.8% Speed up

Offering faster data transfer speeds, lower power consumption, and lower latency, the LPDDR5 is significantly more powerful than LPDDR4X and can provide the most reliable support when dealing with multiple tasks.

The speed of multiple APPs switching is 28.8% faster than LPDDR4X.

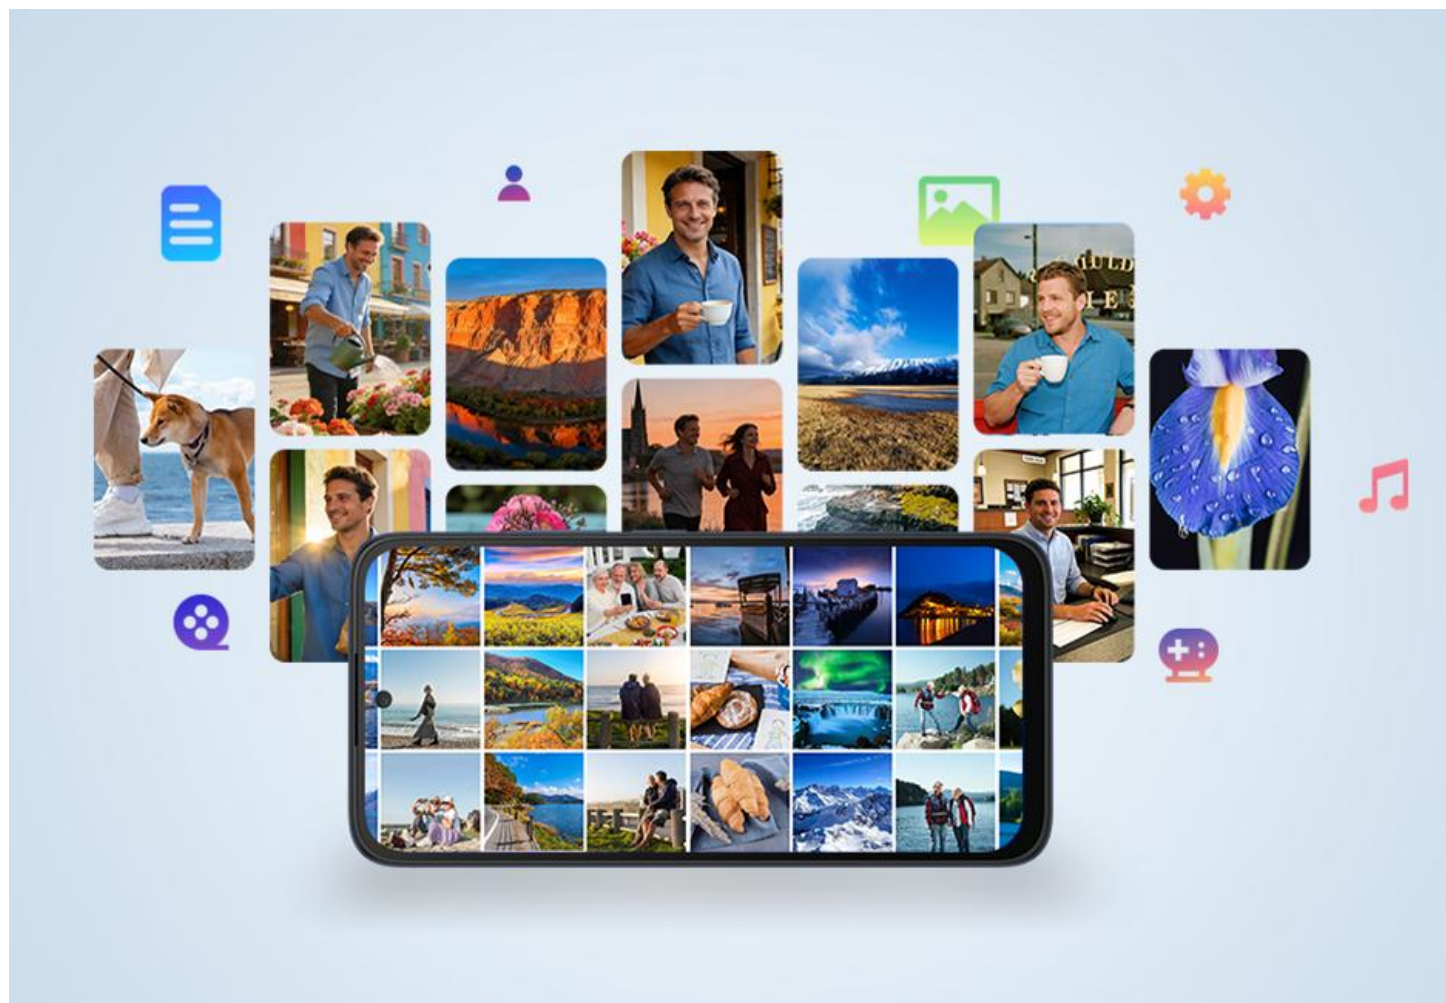

4GB+8GB Ram Expansion

4GB RAM space can be extended to up to 12GB for a smoother user experience. Enables seamless switching between apps and lag-free social media browsing and gaming.

128GB LARGE STORAGE WITH 2TB EXPANSION

SAVE ALL YOU WANT WITH MASSIVE STORAGE

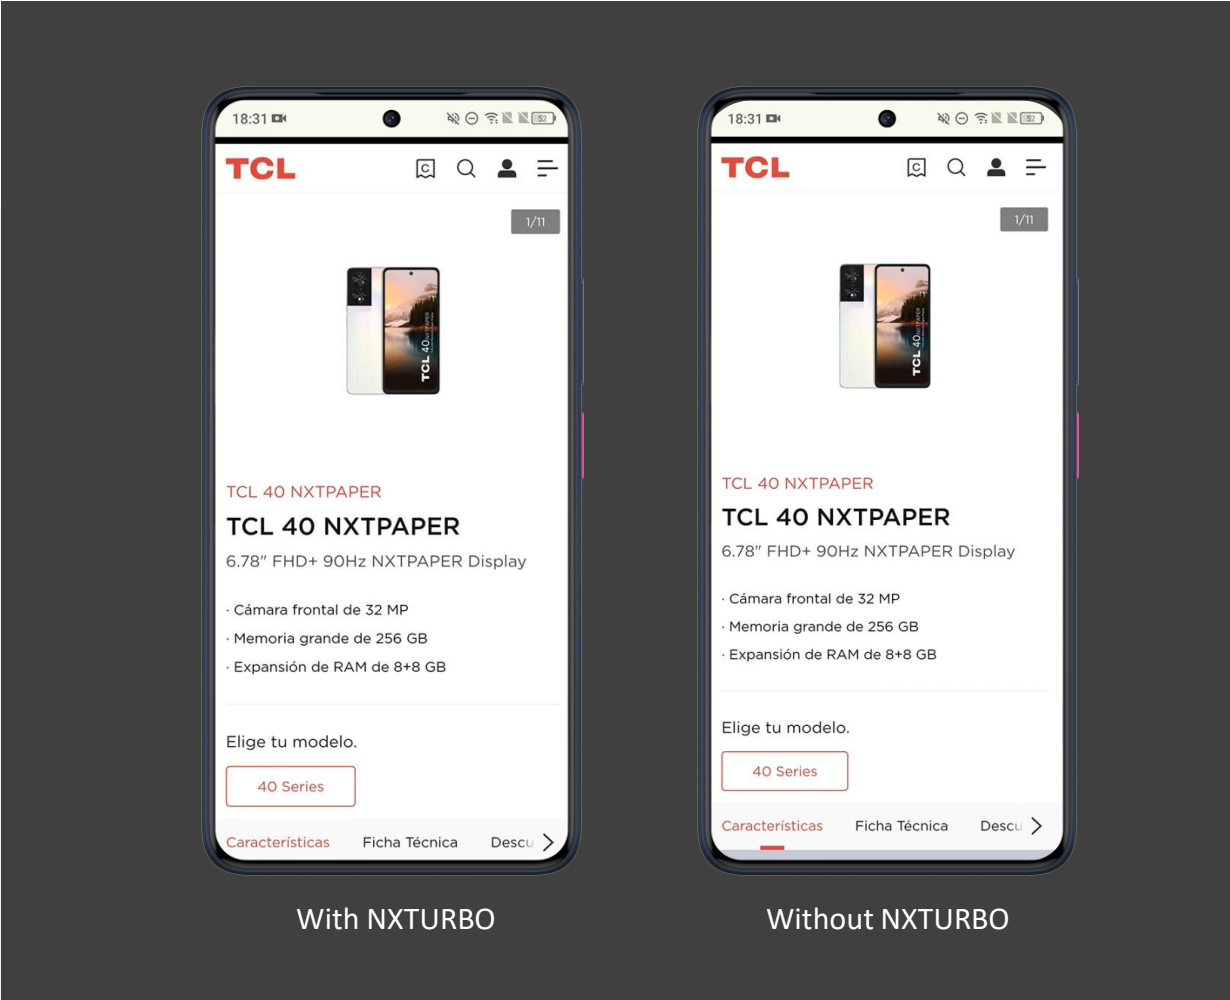

No longer worry for the lack of memory, the 128GB with up to 2TB expansion storage provide an infinite possibility to download and save all the files, images, and videos that you want.

TCL NXTURBO PERFORMANCE ENHANCEMENT

STAY SMOOTH AND FLUID AFTER YEARS OF USE

TCL NXTURBO 4.0

Experience enhanced smooth and fast performance with TCL NXTURBO, offering instant app launches, **effortless APP switching,** rapid image loading, and seamless scrolling. Your device remain responsive and smooth even after years of use.

MILITARY-GRADE SHOCK RESISTANCE

FORGED FOR THE TOUGHEST

This device has successfully passed the MIL-STD-810H tests and remains highly reliable from accidental drops to harsh conditions. Combine with Corning Gorilla Glass screen, it is built to withstand the toughest environments, giving you peace of mind anytime, anywhere, enabling you to focus on critical tasks.

Multi-surface shockproof

Designed with 6 sides, 8 corners, and 12 edges of all round protection

Military grade protection

Military Standard 810H Test
