

ATOMIC 05 RCR-5

FM / AM

Digital Tuning Clock Radio

The Atomic 05 is a small-size radio with a big sound and excellent AM/FM reception. The digital tuner technology is great for giving you the maximum station choice for your area, no matter where you are. The Atomic 05 is a very well designed clock radio with great sound for music and talk radio. The display is a soft, warm color, most conducive to a good sleeping environment—it's easy to read but won't keep you awake with glare when sitting on your bedside table.

With the digital tuner you can easily store 10 station presets (5 FM, 5 AM) and use 2 alarm timers to wake you up. You can choose alarms to start Weekdays, Weekends, Daily or Once. The HWS (Humane Wake System) buzzer and radio let you wake up as comfortable as possible.
